

**Precisions** | Protection and touch  
Parkour/Freerunning gloves for Fluescent.

# Fluorescent

Parkour and Freerunning

## A balance between protection and touch

- + Pointer and middle fingers are the most likely to be cut up grabbing onto ledges or get splinters vaulting a bench
- + Open fingers allow a feel for the surfaces you are on

© Kyle Solá 2010

This project was in conjunction with my Senior Industrial Design Studio, IND 401 • 402 Making Meaning which in part, helped fulfill some of the requirements for my Bachelor of Industrial Design at Pratt Institute.
